

VIDEO DISCUSSION QUESTIONS

NEEDS ASSESSMENT

Solving the Right Problem
Dr. Laura Lipton

Watch the video individually or with a team. As you watch, consider how you currently prioritize needs and identify causal theories.

AFTER WATCHING THE VIDEO, DISCUSS AND ANSWER THESE QUESTIONS:

- How does the process Laura Lipton describes compare to the one you currently use to identify priorities and surface multiple causal theories?
- Once you have a list of possible causes for a problem, how do you validate and select the one that likely has the most impact?

NOW, PUT WHAT YOU'VE LEARNED TO WORK:

- Determine if your current process is effective. If it needs refinement, reference the Needs Assessment Guidance document on the TAIS website.
