

VIDEO DISCUSSION QUESTIONS

USE OF QUALITY DATA TO DRIVE INSTRUCTION

Case Management: A Targeted Protocol to Improve Instruction
Dr. Michael Fullan

Watch the video individually or with a team. As you watch, think about how you currently examine individual student data.

AFTER WATCHING THE VIDEO, DISCUSS AND ANSWER THESE QUESTIONS:

- How does the case management process Dr. Fullan describes compare to the current process at your school?
- How might the process Dr. Fullan describes be used to refine practices at your school?
- What is the value of “putting faces on the data”?
- Why is it important to make data “sticky”?

NOW, PUT WHAT YOU'VE LEARNED TO WORK:

- Review the process your school uses to investigate individual student data and conduct case management protocols.
- If needed, use Dr. Fullan’s ideas to refine your process and make it even more effective.
